

POWER, WATER & GAS RECONNECTION STEPS

Steps on how to reconnect your utilities after rebuilding your Single Family Dwelling

1

PLAN YOUR UTILITIES

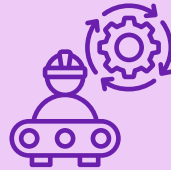

Coordinate with your Utility Providers

- Contact LADWP to request service at <https://www.ladwp.com/construction-services>
- Please forward customer support questions to paslisadesrebuild@ladwp.com
- You must contact LADWP Prior to the start of Construction (during or after permit issuance) to obtain meter spot or plan approval.

2

COMMENCE CONSTRUCTION

Install Electrical, Plumbing & Gas Systems

- Install meter panel & conduit (Power), as directed.
- Install plumbing (water)
- Install gas piping and prepare for testing (gas)

3

INSPECTIONS APPROVED?

All Inspections passed?
Go to Step 4

Address corrections and request a re-inspection

[Click here for additional information on Permits and Inspections](#)

4

PREPARE FOR YOUR RECONNECTION

LADWP

Open a service account

SoCalGas

SoCalGas will contact you once a release is received.

Make sure your contact information is correct.

You cannot move in!

5

LADBS SENDS RELEASE

Automatic Release to Utility Companies

Once you've passed your final inspection, LADBS will automatically send release to LADWP for Power and to SoCalGas for Gas.

LADWP can schedule meter installation once LADBS and LADWP inspections are approved.
